CTE

Introduction To Dental Assisting

CTE

**Health Science
& Medical
Technology**

Introduction to Dental Careers is designed to give students the opportunity to acquire entry-level skills in the Dental Assisting field. A training record will record the student's knowledge and achievements throughout the program.

Upon successful completion of the Dental Assisting Course, the student will receive a certificate allocating four months credit towards their State of CA RDA license, giving them priority to enter the post-secondary Dental Board Approved Dental Assisting (RDA) program. Obtaining a certificate is optional.

Career Technical Education

- Strengthens the relationship between the classroom experience and the 21st century skills needed for the workplace.
- Prepares students for post-high school technical training, college and career opportunities.

Community Events

Throughout the school year, Dental students will have the option to participate in community events such as:

Give Kids A Smile

**Shasta High School
Annual Health Fair**
